Venue	:	Grand Diamond Ballroom, IMPACT Forum, Muang Thong Thani, Nonthaburi, Thailand
Date	:	Friday November 29, 2019

Background and Significance:

Education in Thailand has been oftentimes reformed in terms of policy, curriculum, technology, etc. The purposes are to improve the academic achievement within the country. However, this intention has not been accomplished comparing to international standards. On the contrary, many countries in the world have been developed and moved ahead rapidly in terms of education. It is believed that one of the key success factors is to inspire and encourage school principals to take a major part in the education development.

4REs refers to reform, redefine, rethink and reshape. These approaches require the collaboration from both government and private sectors to approve of the same direction for improving the economic competitiveness in local, regional, and global levels.

"Thailand's Education Leader Symposium 2019" under the concept "4REs: The Resolve for Enhancing Thailand's Education 4.0" is honored to receive a number of local and international education experts with educational management and skills for implementing quality educational reform. The education leaders will not only be able gain inspiration to develop Thailand's education but also apply the 4REs knowledge gained in their school's context.

Objectives:

1. To support the impartation and exchange of experience in managing educational institutes for the learning in the 21st century by utilizing 4REs concept
2. To learn the 4REs ideas and experiences in educational reform from world-class educators to be guidelines for educational institute management planning
3. To strengthen the network and sustainable educational development collaboration of education leaders in Thailand

Expected Results:

1. Education leaders will realize and be able to inspire their subordinates to build their collaboration and encouragement for creating new education development solutions utilizing 4REs concept.
2. Education leaders will be able to adopt the 4REs guidelines to improve the management for their institutes more efficiently.
3. Education leaders will be able to build a strong network and collaboration on education for sustainable development in a creative manner.

Key Contents:

1. 4REs for Enhancing Thailand's Education 4.0
2. Competency-Based Learning: Guidelines for Developing Human Potential

Aksorn Education Public Company Limited

Evaluation:

Satisfaction questionnaire

Languages:

Thai and English (simultaneous interpretation will be provided.)

Brief Background of the Hosts:

Aksorn Education Public Company Limited is one of the largest K12 education companies in Thailand and South East Asia. Aksorn's mission is to make a large scale impact by creating classrooms where educators are learning coaches and students work together to arrive at core knowledge while developing necessary working skills.

Aksorn offers a variety of educational products and services serving the growing needs of schools, educators, and students across Thailand. Its learning and teaching solutions include school textbooks, library books, general education books, digital learning solutions, education toys, and learning manipulative as well as professional development programs for educators.

Annually Aksorn holds almost 400 events around the country to inspire and train more than 70,000 educators on topics such as teaching pedagogy, teaching techniques, making learning interventions, subject knowledge, and career development. Every year Aksorn gives out millions of copies of teaching guides to educators around Thailand. Aksorn's teaching guides provide inspirations, pedagogical ideas, thinking questions as well as suggested teaching interventions for educators to apply to their students and classrooms.

The Faculty of Education was established in 1957 as the seventh faculty of Chulalongkorn University. Originally known as the Department of Teacher Training, the Faculty of Education was under the administration of the Faculty of Arts and Science, which was one of the first four faculties of Chulalongkorn University. In 1943, when the Faculties of Arts and Science were separated, the name 'Teacher Training' was changed to 'Education' and attached to the Faculty of Arts, subsequently named the "Faculty of Arts and Education". It was not until 1957 that the Faculty of Education became independent. It started off with four departments, gradually increasing to a total of twelve departments and two demonstration schools.

The Faculty of Education takes pride in the strength of the programs that it offers. This results from the expertise of faculty members and their ongoing research. The program's graduates have found work in both the public and private sectors in and outside of the country. They have gone to work at public and private universities, non-profit organizations, and various governmental ministries. Faculty and students have won numerous distinguished awards, and they have been recognized for their contributions to current educational reform.

Friday November 29, 2019
